

IT Onboarding Standard Operating Procedure

Purpose

This SOP defines the process for provisioning IT equipment and access for new employees at Acme Corp. The goal is to ensure every new hire has the tools they need on their first day.

Scope

Applies to all new full-time employees, contractors, and interns.

Roles and Responsibilities

Role	Responsibility
Hiring Manager	Submits IT onboarding request at least 5 business days before start date
HR	Notifies IT of new hire and provides employee details
IT Support	Provisions equipment, creates accounts, configures access
New Employee	Completes onboarding checklist, acknowledges policies

Procedure

Step 1: Submit IT Request

The hiring manager submits an IT onboarding request through the IT portal at it.acmecorp.com/onboarding. Required information:

- Employee name and email
- Start date
- Department and manager
- Equipment needed (laptop, monitor, accessories)
- Software and access requirements

Step 2: Equipment Provisioning

IT provisions the following standard equipment:

- **Laptop:** Dell Latitude 5540 or MacBook Pro (M4) — specified by the hiring manager based on role requirements
- **Monitor:** Dell 27" 4K monitor (one standard, two upon request with justification)
- **Accessories:** Keyboard, mouse, headset, webcam, docking station

- **Phone:** Optional desk phone or softphone license

Equipment is prepared and tested before the employee's start date.

Step 3: Account Creation

IT creates the following accounts:

- Active Directory / SSO account
- Company email (Microsoft 365)
- Slack
- Zoom
- Intranet and HR portal
- VPN access
- File server access (department shares)

Step 4: Software Installation

Standard software installed on all company laptops:

- Microsoft Office 365
- Slack
- Zoom
- Google Chrome
- Adobe Acrobat Reader
- Company VPN client
- Antivirus software
- Password manager

Step 5: Security Briefing

IT conducts a 30-minute security orientation covering:

- Password policy (minimum 12 characters, MFA required)
- Data handling procedures
- Phishing awareness
- Incident reporting
- VPN usage for remote work

Step 6: First Day Setup

On the employee's first day:

1. Employee picks up equipment from IT (or receives it via mail for remote hires)
2. Employee logs in using temporary password (must change on first login)
3. Employee completes IT Onboarding Checklist in the HR portal
4. Employee acknowledges Acceptable Use Policy

Laptop Request Process

To request a laptop for a new hire:

1. Log in to the IT portal at it.acmecorp.com
2. Navigate to “Onboarding” → “New Equipment Request”
3. Complete the form with employee details and specifications
4. Submit for manager approval
5. IT processes the request within 2 business days
6. Equipment is ready for pickup or shipping by the day before start date

For urgent requests (less than 5 business days), contact IT directly at extension 4200.

Troubleshooting

Issue	Resolution
Laptop not ready	Contact IT Support — extension 4200
Account not created	Check with HR that employee record is complete
Software missing	Submit software request via IT portal
VPN not working	Follow VPN Setup Guide or contact IT
